Final exams have started here at Clarkson University, and many of our seniors are wrapping up their final shows. This will be my last playlist before I return in the fall. WTSC will, however, be continuing operations over the summer on a slightly scaled down basis. The four colleges in the area run with a good deal of students, and we plan to continue bringing them progressive music. My brother Marty will assume my Music Director responsibilities, and will have another playlist out in the near future.

Bob Hanke and I would like to thank you for the fine support we have recieved throughout the year, and our members of the station look forward to more of the same for the summer and the new academic year.

Sincerely,

Randy Humphrey
